**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 40, 43, 44, 47, and 48 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose an LCD with a voltage-driven splay-bend initialization transition as recited in claim 40, in particular the limitations that there is at least one region outside the display pixels where the liquid crystal layer thickness is smaller than inside the display pixels, and that an electric field caused by the application of said voltage, applied to the liquid crystal layer, is larger in this region than in the pixels. Claim 40 is therefore allowed, as are dependent claims 47 and 48.

The prior art does not disclose an LCD with a voltage-driven splay-bend initialization transition as recited in claims 43, in particular the limitation that the electric field caused by the application of said voltage concentrates in at least one location outside the display pixels. Claim 43 is therefore allowed, as is dependent claim 44.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
